6.3 mm flat-plug connectors, 2 flat female connectors 6.3 mm
included
Through base plate
According to IP 64 (DIN 40050)
Direct attachment, 2 mounting screws 5/32"

Model 8505

Deck floodlight with special housing combined with masthead
lamp **62242**. Application for boats with lengths <12 m. The
light distribution has been adapted to the special requirements
on smaller sail boats using the FF reflector. The flexible
mounting lugs allow simple and quick mounting on any mast
profile. With halogen cold-beam reflector lamp (12V/20W) for
deck illumination, with cover to protect bulb against damp and
dirt. All metal parts stainless steel. Bulb easy to replace
through opening in cover (with less guard).
