Fabric

I have a 1983 30 oday. I was wondering if anyone knows what the original fabric is called. It is blue with white dashes. I have to redo a bunch of cushions but I am trying to keep the interior original. Any help will be greatly appreciated.

Re: Fabric

You are looking for Olefin fabric. Jacquard type. This was the original sold under the name Herculon. I made all new cushions for my boat with this same material purchased from www.decorativefabricsdirect.com for very reasonable prices.
