

Copper Lugs & Splices

Copper Lugs - Unplated & Plated

- Made from seamless tubes of 99.9% copper for higher conductivity • **cUL listed**
- Designed for stranded copper wires • Rated for 600 volts • Larger pad area for better contact
- Cable size and stud hole stamped on pad • Can be crimped or soldered
- Highly controlled flare to allow easy cable insertion
- Tight barrel to pad transition provides longer usable barrel length

Copper Splices - Tin Plated

- Made from seamless tubes of 99.9% copper & electro tin-plated for higher conductivity & corrosion resistance
- cUL listed • Rated for 600 volts
- Designed for stranded copper wires
- Cable size stamped on splice
- Highly controlled flare to allow easy cable insertion

Heavy Duty Lugs, Splices & Bent Lugs

- Made from seamless tubes 99.9% copper & electro tin-plated for higher conductivity & corrosion resistance
- Heavy duty lugs & splices – thicker wall & wider pad
- Color-coded to industry standard • Rated for 600 volts
- Designed for stranded copper wires
- Cable size and crimp tool die codes stamped on pad
- Lugs can be crimped or soldered
- Chamfered for easy cable insertion
- Tight barrel to pad transition provides longer usable barrel length
