

**FABULA INC
SIGNATURE FINISH
HONEY TEAK**

Hello;

On 12-15-11 a fire destroyed our facility 100%. All files: customer invoices with mixing records, standard formulas, ship to addresses, phone numbers, and credit card information were all lost in the fire. The phone number and fax number were also lost due to our carrier "Comcast". Comcast has to date refused to reactivate our original numbers. 772/287-6077 business phone and 772/287-6252 our fax number. AT&T is trying to correct this problem. In the meantime our temporary numbers are 772/932-7076 (Land Line) and 772/932-7080 (Fax) or Toms cell number 772/626-9065.

We have a print out of your E-mail. Catalyst , Flow Fluid, and Clear top coat for the "Honey Teak" should be available by 2-6-12. The Honey Teak, White-Only, and Black paint should be available by 2-10-12.

The price for materials will remain at the 2010 rates for now. Can charges will increase and supplies may increase.

To start things going you may want to E-mail or call in your shipping address and phone number. You can order at any time.

Ordering paint: Pick colors from a marine paint chart. Awl Grip and Interlux have a good choice. To match your previous paint color we will need a sample of the paint color painted on a piece of aluminum broiler foil using catalyst so it cures hard.

In the past orders were generally out in 48 hours most times it went out the same day. However for now it might take more time.

The phone will be answered 9a.m.-9p.m. every day Florida time.

**Hope to continue to serve you
Thank You
Tom Fabula**
